

## After School Care (Fritids) – Information

Fritids is a service subsidised by the local municipality guided by the Swedish National Curriculum LGR11. Children are eligible to attend from PYP 1 until June the year they turn 13. The fee for Fritids is set according to the Swedish maximum rate law (maxtaxa) which is based on the family income. If your household income is less than SEK 46.080, please complete the attached “Income Form”. The “maxtaxa” is adjusted annually by Malmö Stad.

Fritids is a complement to the education students receive in school and stimulates the students’ development and learning. At the same time, it offers each student a meaningful leisure and/or recreation time. The education at Fritids is based on a holistic view of the student and the students’ needs which also promotes social skills and relationships.

For your child to be eligible to attend Fritids, both parents must be working or studying and therefore need care for their children outside of school hours.

Please complete and return the application to the Fritids Manager or to the school office. Note that we aim to enrol students within a week of receiving their application.

**Opening hours:** 7.15-17.30 every day including school holidays but not public holidays or specified study days.
