

Bladins

A fresh start for BISM in newly renovated premises

There is significant demand for school places in the entire municipality and the interest in Bladins is very high. As a part of ensuring the Foundation's long-term work to accommodate the increasing number of students as well as give children and students the opportunity to attend a long-term sustainable school, the Board has decided that as of the 22/23 academic year, the Bladins International School of Malmö (BISM) and the compulsory school will switch premises to optimise their use.

The change will enable the Foundation to align our portfolio with the respective demand for places at BISM and the compulsory school. It will be a win-win solution, creating a sustainable model that will provide the financial muscle to enable the Foundation to invest continuously for a long time forward. A solution that we can implement with further quality, which has long been on the wish list. It will mark a long-awaited investment and a new start for all of us at BISM. A fresh start for BISM in newly renovated premises in a fantastic location with two parallel classes at Stadiongatan.
