## **Guidelines regarding the Coronavirus at Bladins Foundation**

*This information was last updated on the 13th of March 2020 at 16.00.*

Bladins School Foundation is closely following the development and information about the spread of the Coronavirus. Due to the new guidelines from the Public Health Authority, we have now updated our guidelines.

These guidelines apply to all preschool children, all students in compulsory and upper secondary school, as well as all employees at Bladins School. The guidelines are also continuously updated according to the recommendations of the Public Health Authority, the Swedish National Agency for Education and the Ministry of Foreign Affairs.

### **Guidelines for all children, students and employees at Bladins**

These guidelines apply to everyone who visits and/or works at all school units at Bladins, including guardians.

- If you have symptoms of respiratory infection, even mild cold and/or flu symptoms, you should stay at home and call in sick for yourself and/or your child. If symptoms occur during the school or work day, you should go home without delay. Employees must contact their line manager.
- You should remain at home until you have been completely symptom-free for 24 hours.

Employee information:

The Government decided on March 11th, 2020 to temporarily cancel the “qualifying sick day” (karensdag), for the first day of sickness. This means that as of today sick pay will be paid from the first day of sickness.

### **Guidelines for drop off/pick up at Bladins Grundskola and BISM**

We ask all guardians to avoid entering the schools in connection with drop off/pick up. Please leave/collect your children by the school entrance. There will be extra staff at each entrance to facilitate this.

## **Guidelines for scheduled staff travels and school trips**

Bladins conforms to the precautionary principle, which means that we for the time being will cancel all school trips. For planned staff trips please turn to your line manager.
